

# Random Number Generator / Picker

[Ads by Google](#) [RSS Code Generator](#) [Math Calculator](#) [Rife Generator](#) [Math Problems](#) [Frequency Generator](#)

Click "Get random!" to pick a random number between 1 and whatever you enter in the field below, inclusive. This generates a [pseudo-random number](#) using [JavaScript's](#) Math functions.

If you prefer, you can still use the original [Random Number Picker](#).

## Enter a number:

I want a number between 1 and...

Get random!

## Result:

8
